Publication Ethics and the Review Process for papers

Publication Ethics

- Technical papers describing original, previously unpublished research, not currently under review by another conference or journal, are solicited.

- The peer review process will be double blind.

- Permissible level of Plagiarism is 10 percentage.

- The evaluation is recommended to be based on technical soundness, language, scope, relevance, novelty, originality, quality etc.

- Authors are advised to submit the paper(s) in PDF format without author's names, affiliation and other information related to authors.

Double Blind Peer Review

- For a submitted article, initial plagiarism checked and verifying minimal technical content will be done by chairs.

- Programme chairs will allocate the submitted articles (passing through above step) among reviewers according to their field of interest.

- At least two independent reviewers will need to review and approve a paper.

- A maximum of 5 papers should be assigned to a single reviewer.
